YOUR FLIGHT ATTENDANT CAREER STARTS WITH *Aviation Australia*

At Aviation Australia, we train the best to be the best. Aviation is a highly competitive industry and to get noticed, you need to do something that will set you apart.

Our 25 day Flight Attendant Career Training course will do exactly that, providing you with the confidence, skills and inside-knowledge to showcase your potential. Not only will you learn what it means to be a flight attendant, our connections with various airlines and current knowledge of their expectations means that you will leave with a realistic view of what it takes to become one.

Our career coaching starts on day one of the course and continues even after you secure employment, meaning that we're with you on every step of your flight attendant journey.

Why train with us?

It's simple. We have been the leaders in aviation training since 2001 and every aspect of what we do is dedicated to excellence.

Our training is delivered by industry experts who come from highly successful careers within the aviation industry.

Our instructors will inspire you with their own life experiences and guide you with knowledge, ensuring that you're prepared both physically and emotionally for your future career in aviation.

Our training facilities are world-class and in a league of their own.

Our Flight Safety Training facility provides real-world simulation, allowing you to be immersed in a live aviation environment like no other.

Our courses are designed to set you apart.

Our courses allow you to emerge as a confident, inspired and prepared individual who is ready to showcase your professionalism, knowledge and skills to prospective employers.

Entry Requirements

- Successful completion of Australian Year 10 or equivalent
- The Flight Attendant Career course is fast paced and taught in English. We recommend students have an equivalent of IELTS 5.5 before undertaking this course.

OUR Graduates

Katherine's Story

Prior to attending Aviation Australia, I had applied for flight attendant roles and was unsuccessful for over four years at the recruitment days. Hesitant at first; I found the Flight Attendant Career Training course in Sydney and applied for the course.

The team at Aviation Australia have a vested interest in your career and will give you all the tools and skills in which you need to understand this unique job and fully equip you for the interviews. Upon graduating from the course in May 2015 I received a call from an airline advising that I was successful for the position as a flight attendant.

The Aviation Australia team continue to support not only their current students but also the ones who have graduated. This course was definitely an investment for my lifelong career in aviation and I am grateful to all those who have helped me on this journey.

Adam's Story

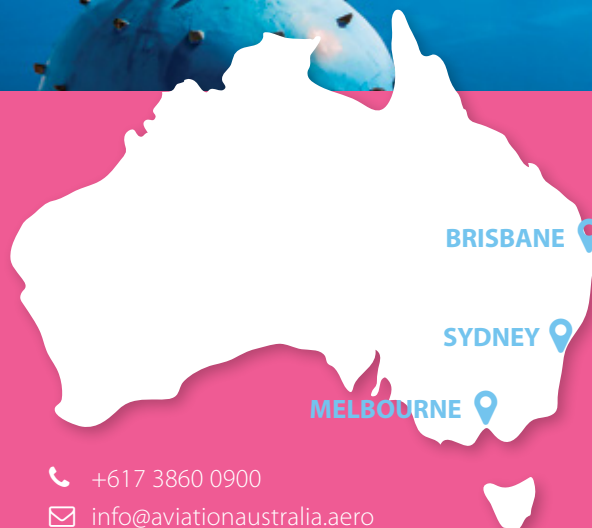

Aviation Australia has been the key to my success in gaining employment in the airlines. They provided an easy transition from the learning environment to full time employment within the aviation sector.

I graduated from Aviation Australia with several offers of employment and started my career with a domestic airline. I then joined, as one of the first cabin crew teams, with a renowned international airline. Unfortunately, due to personal reasons, I could no longer pursue this career.

However, because of AA, I landed a job with the Federal Government's Department of Immigration and Border Protection, serving on the front line as a General Duties Border Force Officer. 11,000 applied for this new role and 140 were successful. It's an amazing feeling going from the classroom at AA, to flying around the world, to enforcing the law at the international airport!
